Report on review of interim condensed consolidated financial statements

To the Board of Directors and Shareholders of Cementos Pacasmayo S.A.A.

Introduction

We have reviewed the accompanying interim condensed consolidated statement of financial position of Cementos Pacasmayo S.A.A. (a Peruvian company) and its Subsidiaries (together the "Group") as of September 30, 2021, and the related interim condensed consolidated statements of profit or loss, other comprehensive income, changes in equity and cash flows for the three and nine-month periods then ended, and explanatory notes. Management is responsible for the preparation and presentation of these interim condensed consolidated financial statements in accordance with IAS 34 Interim Financial Reporting (IAS 34). Our responsibility is to express a conclusion on these interim condensed consolidated financial statements based on our review.

Scope of review

We conducted our review in accordance with International Auditing Standard on Review Engagements (ISRE) 2410, Review of Interim Financial Information Performed by the Independent Auditor of the Entity. A review of interim financial information consists of making inquiries, primarily of the persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed consolidated financial statements are not prepared, in all material respects, in accordance with IAS 34 Interim Financial Reporting.

Notes to interim condensed consolidated financial statements (unaudited)

As of September 30, 2021 and 2020, and December 31, 2020

1. Economic activity

(a) Economic activity -

Cementos Pacasmayo S.A.A. (hereinafter "the Company") was incorporated in 1957 and, in accordance with the General Law of Peruvian Companies, is an open stock corporation with publicly traded share. The Company is a subsidiary of Inversiones ASPI S.A., which holds 50.01 percent of the Company's common shares as of September 30, 2021, December 31, 2020 and September 30, 2020.

The address registered by the Company is Calle La Colonia No.150, Urbanización El Vivero, Santiago de Surco, Lima, Peru.

The main activity of the Company is the production and commercialization of cement, precast, concrete and quicklime in the northern region of Peru.

The interim condensed consolidated financial statements of the Company and its subsidiaries (hereinafter the "Group") as of September 30, 2021 and for the nine-month period then ended, were approved for issuance by the Company's Management on October 26, 2021. The consolidated financial statements as of December 31, 2020 have been approved by the General Meeting of Shareholders, on March 23, 2021.

(b) COVID 19 -

COVID-19, an infectious disease caused by a new virus, was declared a world-wide pandemic by the World Health Organization ("WHO") on March 11 2020. The measures to slow the spread of COVID-19 have had a significant impact on the global economy.

On March 15, 2020, the Peruvian government declared a nationwide state of emergency, effectively shutting down all business considered non-essential (with exception of food production and commercialization, pharmaceuticals and health). As a result, since that date, we shut-down our three plants until the Peruvian government allowed us to restart production and commercial activities on May 20, 2020.

On August 14, 2021 the Government has decided to extend the state of health emergency nationwide for 180 calendar days from September 3, 2021, to March 1, 2022 in order to continue with the prevention, control and health care actions for the protection of the population of the entire country.

Notes to interim condensed consolidated financial statements (unaudited) (continued)

During the halt period, we were unable to generate income; however, the Company largely returned to the operating levels prior to the shut-down as of the month of August 2020. The Group has prepared interim condensed consolidated financial statements until September 30 2021 on a going concern basis, which assumes continuity of current business activities and the realization of assets and settlement of liabilities in the ordinary course of business.

Regarding financial obligations, we have not yet seen any changes in our access and cost of funding, however, at the beginning of the nationwide emergency state we took a bank overdraft line and short-term loans as a precautionary measure in order to cover our working capital needs, some of these loans have already been canceled and others are still outstanding as shown in note 9.

The Company has taken various measures to preserve the health of its employees and to prevent contagion in its administrative and operational areas, such as remote work, rigorous cleaning of work environments, distribution of personal protective equipment, test of suspicious cases and body temperature measurement.

2. Basis of preparation and changes to the Group's accounting policies

2.1 Basis of preparation -

The interim condensed consolidated financial statements of the Group have been prepared in accordance with IAS 34 *Interim Financial Reporting* as issued by the International Accounting Standards Board (IASB). The interim condensed consolidated financial statements have been prepared on a historical cost basis, except for financial instruments designated at fair value through other comprehensive income (OCI) and derivatives financial instruments that have been measured at fair value. The interim condensed consolidated financial statements are presented in soles and all values are rounded to the nearest thousand (S/000), except when otherwise indicated. The Group has prepared the financial statements on the basis that it will continue to operate as a going concern. The Management consider that there are no material uncertainties that may cast significant doubt over this assumption. They have formed a judgement that there is a reasonable expectation that the Group has adequate resources to continue in operational existence for the foreseeable future, and not less than 12 months from the end of the reporting period.

The interim condensed consolidated financial statements do not include all the information and disclosures required in the annual financial statements and should be read in conjunction with Group's annual consolidated financial statements as of December 31, 2020.

New standards, interpretations and amendments

The accounting policies adopted in the preparation of the interim condensed consolidated financial statements are consistent with the policies considered in the preparation of the consolidated financial statements of the Group at December 31, 2020, except for the adoption of new standards effective as of 1 January 2021. The standards and interpretations relevant to the Group, that are effective since January 1, 2021 are disclosed below.

Notes to interim condensed consolidated financial statements (unaudited)

(continued)

- *Amendments to IFRS 7, IFRS 9 and IAS 39 Interest Rate Benchmark Reform*
The amendments to IFRS 9 and IAS 39 Financial Instruments: Recognition and Measurement provide a number of reliefs, which apply to all hedging relationships that are directly affected by interest rate benchmark reform, "LIBOR". A hedging relationship is affected if the reform gives rise to uncertainty about the timing and/or amount of benchmark-based cash flows of the hedged item or the hedging instrument. These amendments have no impact on the consolidated financial statements of the Group since it does not have financial debt agreed with the reference interest rate "LIBOR" or associated hedging relationships.

The Group has not adopted in advance any other standard, interpretation or modification that has been issued but has not yet entered into force.

2.2 Basis of consolidation -

The interim condensed consolidated financial statements comprise the financial statements of the Company and its subsidiaries as of September 30, 2021 and 2020.

As of September 30, 2021 and 2020, there was no changes in the participation of the common shares that the Company's had on its subsidiaries; the main activities and information about subsidiaries are revealed on the consolidated financial statements as of December 31, 2020.

2.3 Seasonality of operations -

Seasonality is not relevant to the Group's activities.

3. Cash and cash equivalents

- (a) This caption consists of the following:

	As of September 30, 2021 S/(000)	As of December 31, 2020 S/(000)

4. Trade and other receivables

As of September 30, 2021 and December 31, 2020 this caption mainly include trade receivables, value-added tax credit (VAT), interest receivables and accounts receivables from related parties. At those dates, approximately S/58,703,000 and S/46,484,000, respectively of the trade receivables were guaranteed by banks guarantees and mortgages. These amounts correspond to 56 percent and 63 percent of the trade receivables as of that dates, respectively.

As of September 30, 2021 and 2020, the Group recorded S/1,517,000 and S/2,287,000, respectively, related to the provision for expected credit losses for trade receivables, which are presented in the caption "Sales and distribution expenses" of the interim condensed consolidated statement of income and; correspond to the best estimate of Management considering the current situation. The Group's Management will continue evaluating the conditions of its client portfolio and, if deemed necessary, the corresponding provisions will be made.

The movement of the allowance for expected credit losses on trade and others receivable for the three-month period ended as of September 30, 2021 and 2020 is as follows:

	2021 S/(000)	2020 S/(000)

On March 22, 2021, the Company received Tax Court Resolution N° 00905-4-21 that declares the calculation of Mining Royalty should be based on gross sale of the final product (cement) for the years 2008 and 2009. This is an opposite position to what is established by the Constitutional Court in the STC Exp. N° 1043-2013-PA/TC that declares founded the writ of protection presented by the Company and its right to calculate the Mining Royalty exclusively based on the value of the mining component, without considering in any way the value of the final products derived from industrial and manufacturing processes.

Faced with the threat of a forced collection of this debt notified with coercive resolution by SUNAT; the Company made, under protest, partial payments of the debt arbitrarily placed in collection. These payments as of September 30, 2021 amount to approximately S/ 17,600, 000 and are presented in the caption "Miscellaneous receivables, net", non-current assets. To date, the Company has already initiated the corresponding legal actions to recover said payments and in the opinion of Management and its external legal advisors, it has a high probability of obtaining a favorable result.

Total financial liabilities	1,776,272	1,445,982	1,786,461	1,517,497	

All financial instruments for which fair value is recognized or disclosed are categorized within the fair value hierarchy, based on the lowest level input that is significant to the fair value measurement as a whole, as follows:

Level 1 – Quoted (unadjusted) market prices in active markets for identical assets or liabilities.

Level 2 – Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.

Level 3 – Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognized at fair value on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy. As of September 30, 2021 and December 31, 2020, there were no transfers between the fair value hierarchies.

Notes to interim condensed consolidated financial statements (unaudited) (continued)

Management assessed that cash and term deposits, trade and other receivables and other current liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments.

The following methods and assumptions were used to estimate the fair values:

- The fair value of cross currency swaps is measured by using valuation techniques where inputs are based on market data. The most frequently applied valuation techniques include swap valuation models, using present value calculations. The models incorporate various inputs, including the credit quality of counterparties, foreign exchange, forward rates and interest rate curves.

A credit valuation adjustment (CVA) is applied to the "Over-The-Counter" derivative exposures to take into account the counterparty's risk of default when measuring the fair value of the derivative. CVA is the mark-to market cost of protection required to hedge credit risk from counterparties in this type of derivatives portfolio. CVA is calculated by multiplying the probability of default (PD), the loss given default (LGD) and the expected exposure (EE) at the time of default.

A debit valuation adjustment (DVA) is applied to incorporate the Group's own credit risk in the fair value of derivatives (that is the risk that the Group might default on its contractual obligations), using the same methodology as for CVA.

- The fair value of the quoted senior notes is based on the current quotations value at the reporting date.
- The fair value of the promissory note is calculated using the results of cash flow discounted at the indebtedness market rates effective as of the date of estimation.

16. Commitments and contingencies

Operating lease commitments - Group as lessor

As of September 30, 2021, the Group, as lessor, has a land lease with Compañía Minera Ares S.A.C., a related party of Inversiones ASPI S.A. This lease is annually renewable, and provided a rent for the nine-month period ended September 30, 2021 and 2020 for S/890,000 and S/1,003,000, respectively.

Capital commitments

As of September 30, 2021, the Group had no significant capital commitments.

Environmental matters

The Group exploration and exploitation activities are subject to environmental protection standards. Such standards are the same as those disclosed on the consolidated financial statement as of December 31, 2020.

Notes to interim condensed consolidated financial statements (unaudited) (continued)

Tax situation

The Company is subject to Peruvian tax law. As of September 30, 2021 and 2020, the income tax rate is 29.5 percent of the taxable profit after deducting employee participation, which is calculated at a rate of 8 to 10 percent of the taxable income.

For purposes of determining income tax, transfer pricing transactions with related companies and companies resident in territories with low or no taxation, must be supported with documentation and information on the valuation methods used and the criteria considered for determination. Based on the analysis of operations of the Group, Management and its legal advisors believe that as a result of the application of these standards will not result in significant contingencies for the Group as of September 30, 2021 and December 31, 2020.

During the four years following the year tax returns are filed, the tax authority has the power to review and, as applicable, correct the income tax computed by each individual company.

The income tax and value-added tax returns for the following years are open for review by the tax authority

Entity	Years open to review by Tax Authorities	
	Income tax	Value-added tax
Cementos Pacasmayo S.A.A.	2016-2020	Dec.2016-2021
Cementos Selva S.A.	2016-2020	Dec.2016-2021
Distribuidora Norte Pacasmayo S.R.L.	2016-2020	Dec.2016-2021
Empresa de Transmisión Guadalupe S.A.C.	2016-2020	Dec.2016-2021
Salmueras Sudamericanas S.A.	2016-2020	Dec.2016-2021
Calizas del Norte S.A.C. (on liquidation)	2016-2020	Dec.2016-2021
Soluciones Takay S.A.C.	2019-2020	May to Dec.2019-2021

Due to possible interpretations that the tax authorities may give to legislation in effect, it is not possible to determine whether any of the tax audits that may be performed will result in increased liabilities for the Group. For that reason, tax or surcharge that could arise from future tax audits would be applied to the income during the period in which it is determined. However, in management's opinion, any possible additional payment of taxes would not have a material effect on the interim condensed consolidated financial statements as of September 30, 2021 and the consolidated financial statements as of December 31, 2020.

Legal claim contingency

As of September 30, 2021, some third parties have commenced actions against the Group in relation with its operations which claims in aggregate represent S/11,718,000. From this total amount, S/3,441,000 corresponded to labor claims from former employees; S/7,681,000 linked to resolutions of determination and fine on the property tax of the periods 2009 to 2014 issued by the District Municipality of Pacasmayo and S/596,000 related to the tax assessments received from the tax administration corresponding to 2009 tax period, which was reviewed by the tax authority during 2012.

Notes to interim condensed consolidated financial statements (unaudited) (continued)

Management expects that these claims will be resolved within the next five years based on prior experience; however, the Group cannot assure that these claims will be resolved within this period because the authorities do not have a maximum term to resolve cases.

The Group has been advised by its legal counsel that it is only possible, but not probable, that these actions will succeed. Accordingly, no provision for any liability has been made in these interim condensed consolidated financial statements.

Mining royalty

The Group signed agreements with third parties and with Peruvian Government related to the use of concessions for extraction activities on process of cement production. The information of the payment of royalties are reveled on the consolidated financial statements of the Group as of December 31, 2020.

17. Segment information

For management purposes, the Group is organized into business units based on their products and activities, and have three reportable segments as follows:

- Production and marketing of cement, concrete and precast in the northern region of Peru.
- Sale of construction supplies in the northern region of Peru.
- Production and marketing of quicklime in the northern region of Peru.

No operating segments have been aggregated to form the above reportable operating segments.

Management monitors the profit before income tax of each business units separately for the purpose of making decisions about resource allocation and performance assessment.

Transfer prices between operating segments are on an arm's length basis in a similar manner to transactions with third parties.

18. Financial risk management, objectives and policies

The Group's main financial assets include cash and short-term deposits (with maturity less than 360 days) and trade and other receivables that derive directly from its operations. The Group also holds financial instruments designated at fair value through OCI, cash flow hedges instruments and derivative financial instruments of trading. The Group's main financial liabilities comprise trade payables and other payables, loans and borrowings, with short-term and long-term maturities. The main purpose of these financial liabilities is to finance the Group's operations.

The Group is exposed to market risk, credit risk and liquidity risk. The Group's senior management oversees the management of these risks. The Group's senior management is supported by financial management that advises on financial risks and the appropriate financial risk governance framework for the Group. The financial management provides assurance to the Group's senior management that the Group's financial risk-taking activities are governed by appropriate policies and procedures and that financial risks are identified, measured and managed in accordance with the Group's policies and risk objectives.

The Management reviews and agrees policies for managing each of these risks as mentioned in the consolidated financial statements as of December 31, 2020.

Foreign currency risk -

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Group's exposure to the risk of changes in foreign exchange relates primarily to the Group's operating activities (when revenue or expense is denominated in a different currency from the Group's functional currency).

The Group hedges its exposure to fluctuations on the translation into soles of its Senior Notes which are denominated in US dollars, by using cross currency swaps contracts, see note 15.

Notes to interim condensed consolidated financial statements (unaudited) (continued)

Foreign currency sensitivity

The following table demonstrates the sensitivity to a reasonably possible change in the US dollar exchange rate, with all other variables held constant. The impact on the Group's profit before income tax is due to changes in the fair value of monetary assets and liabilities.

As of September 30, 2021 U.S. Dollar	Change in US\$ rate %	Effect on consolidated profit before tax S/(000)
	+5	10,732
	+10	21,465
	-5	(10,732)
	-10	(21,465)
As of September 30, 2020 U.S. Dollar	Change in US\$ rate %	Effect on consolidated profit before tax S/(000)
	+5	2,426
	+10	4,853
	-5	(2,426)
	-10	(4,853)

Liquidity risk -

The Group monitors its risk of shortage of funds using a recurring liquidity planning tool.

The Group's objective is to maintain a balance between continuity of funding and flexibility through the use of bank loans and debentures of long term. Access to fund sources is sufficiently available and debt maturing within 12 months can be rolled over under the same conditions with existing lenders, if necessary.

As of September 30, 2021 and December 31, 2020, no portion of the corporate bonds will mature in less than one year.

Risk management activities -

As a result of its activities, the Group is exposed to the foreign currency exchange rate risk, thereof the Company has acquired hedging financial instruments to cover this risk. Since November 2014, the Group has hedged its exposure to foreign currency from its corporate bonds (denominated in US dollars). During the nine-month period ended September 30, 2021, there was moderate volatility in the US dollar exchange rate with respect to the soles, whose effects were partially mitigated by the exchange rate hedge maintained by the Company.

As of September 30, 2021 and December 31, 2020, except for the derivatives financial instruments (cross currency swaps) signed by the Company to hedge the foreign currency risk of its Senior Notes, the Group had no other financial instruments to hedge its foreign exchange risk, interest rates or market price (purchase price of coal) fluctuations.
